

# Stripping sand / Glass bead for stripping

**Method: stripping and cleaning with sand or glass bead**

## USAGE

The SNL offers a complete range of pickling sand based on pure silica sand with 98% washed, rolled and dried silica.

Important note: it is important to respect the wearing of individual and collective protection equipment in stripping operations to comply with silica exposure values.

We also offer glass beads on request for certain stripping operations

## SAND CHARACTERISTICS

We offer different size distribution according to your application

Our best-selling stripping sand is 1-2mm sand
